SPRING AND FALL 1927

L. F. DINTELMANN

NURSEYMAN

BELLEVILLE, - - ILLINOIS

Yours truly

L. F. DINTELMANN

Location—Belleville is located fourteen miles east of St. Louis; Nursery one and one-half miles southwest of the Court House.

Bell Telephone, 729 W.

**I. C. R. R., L. & N. and Southern
Railway**

**American Railway Express Co., Southern
Express Co. and Interurban Express
Co. Auto Truck Service to St. Louis.**

INFORMATION

Terms—We will not accept orders unless we believe the buyer commercially responsible. Thirty to sixty days, unless other terms are agreed to.

Shipping—We ask precise instructions as to kind of conveyance and route. If no instructions are given, we will use our own discretion. After the goods have been delivered to forwarders and receipted for in good condition, our responsibility ceases.

Guarantee—While we use every endeavor to send out all stock true to name, all orders are booked and shipped with expressed understanding between the purchaser and ourselves, that should any prove not true to name, we will only replace the stock or refund in cash the invoice price.

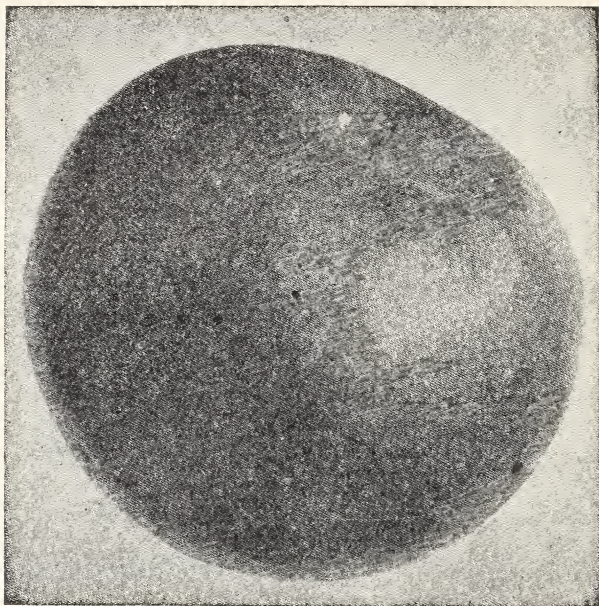

Season—We usually begin shipping about October 15th; Peonies and Iris in August and September. Spring digging begins about March 1st.

Packing—All orders will be carefully baled or boxed with damp moss or shingle toe, for which a reasonable charge will be made.

Complaints—All complaints for rebates or allowances must be made upon receipt of goods.

Caution—All orders are accepted and made subject to loss of stock by drouth, frost, fire, insects or other causes over which we have no control.

THE GLADIOLUS

This popular flower is now grown throughout the land. No other flower has forged its way into public favor in the last 20 years. I have planted it in large lots for over 20 years and now have a fine assortment of varieties. Have shipped the cut spikes into twenty states. The largest part of my shipments of cut flowers go to St. Louis and Chicago. By planting at intervals of about two weeks from March 10th to June 30th, I am enabled to cut spikes from July 1st to October 20th or until frost.

EXPERIMENTAL FIELD

I have seventy-five varieties of the newer and so-called improved varieties of Peonies and 60 Iris. These plants will be carefully cultivated, their habits noted, and credit will be given only when it is due. All varieties not proving up to a standard will be dumped regardless of cost of plants. Any information about this experimental field will be gladly given to any one interested.

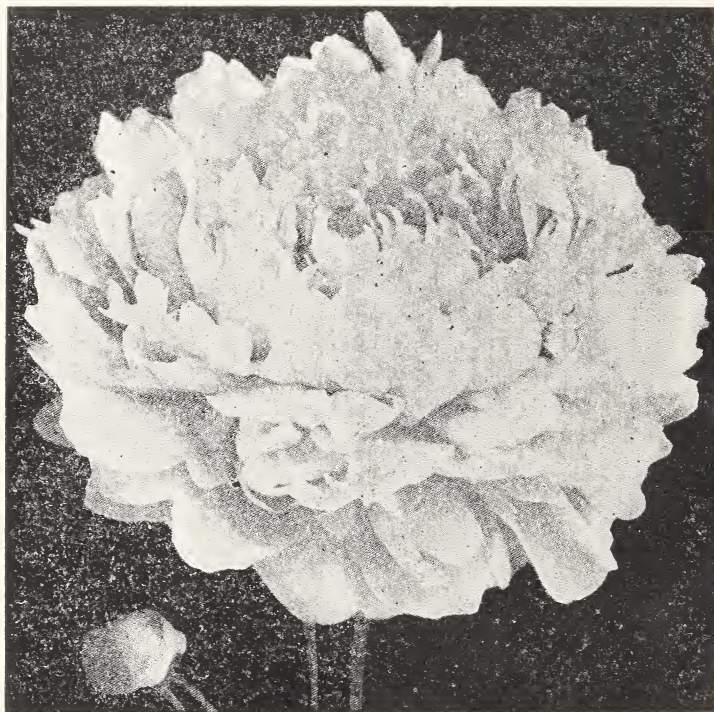

SIZES OF GLADIOLUS.

No. 1— $\frac{1}{2}$ in and up; No. 2— $1\frac{1}{4}$ to $1\frac{1}{2}$ inch;
No. 3—1 to $1\frac{1}{4}$ inch; No. 4— $\frac{3}{4}$ to 1 inch; No. 5— $\frac{1}{2}$ to $\frac{3}{4}$ inch. No. 6— $\frac{1}{2}$ in and less.

50 bulbs at 100 rates; less than 50, add 10 per cent to 100 rates; 500 at 1000 rates.

FESTIVA MAXIMA

HERBACEOUS PEONIES

From a small planting in 1905 I have now some 25,000 plants in stock, having supplied St. Louis and Chicago markets with cut flowers for Decoration Day trade the past nineteen seasons and have shipped the buds as far west as Montana, and south as far as New Orleans and east to Massachusetts. I am satisfied that no crop of cut flowers grown in Southern Illinois, Missouri Indiana and Ohio promises as well as the Peony. This territory will produce the bloom five, ten to fifteen days prior to Decoration Day. Cold storage will hold them back so that the entire crop may be easily sold at fair prices.

I offer only a limited list of varieties. Too many varieties are a drawback in the packing and shipping of the buds. Plant the best varieties and eliminate the number of varieties as much as possible.

PEACH AND APPLE TREES FOR THE FALL OF 1927 AND SPRING 1928

I have over 10,000 peach trees coming on, in leading varieties; also 10,000 apple trees. They will be ready for digging in October, 1927. Come to the nursery and see them growing during the summer months. Also a full assortment of varieties in Plum, Cherry and Pear Trees, Shade Trees, Shrubs, Evergreens, Roses, Peony, Iris, Dahlia, Canna Roots and Gladiolus Bulbs; twenty acres of nursery rows.

OO

THE ST. CLAIR PEACH

This new Yellow Cling Stone Peach is now growing in the yard of Mr. and Mrs. Craddock, at 1516 North 49th Street, East St. Louis, Illinois. The wonderful size, color and general appearance at once puts it in the front rank as a commercial peach. The tree is a vigorous grower, bears heavy crops. Ripens about September 1st, just after Elberta and Hale are over.

This new peach will no doubt make good with the peach growers the country over. It is up to every peach grower to at least plant a few trees for trial. Price medium size trees, 75c.
